PROFESSIONAL EXPERIENCE

Software Testing

06/2024 – 09/2024

Sales Queen Solutions 🔗

- Acquired knowledge in defect tracking and quality assurance software at Sales Queen Solutions as a **Manual Tester** – the position which required executing comprehensive **functional tests**, preparing use case scenarios, as well as manually checking errors in the program.

PROJECTS

Quizzy - Online Quiz Web App 🔗

- Developed an interactive quiz application using **Next.js** and **React** that features multiple knowledge categories with timed questions, real-time scoring, and a comprehensive statistics dashboard showcasing user performance metrics.
- Implemented **responsive UI** with **Tailwind CSS**, custom SVG components, and React hooks for state management, creating an engaging user experience with countdown timers and detailed analytics including correct/incorrect answers, completion rates, and time statistics

AI-Powered Itinerary App

- Developed a **Next.js** application that leverages **Llama3.2** to generate personalized travel itineraries with MongoDB integration for persistent storage and retrieval.
- Built a **responsive React-based UI** with form validation and implemented **RESTful API** endpoints for CRUD operations, enabling users to create, save, and search for travel plans by ID or destination.

ShoppY - Shopping site 🔗

- Developed a responsive e-commerce platform, "Simple ShoppY," utilizing **Vite** for a fast development experience and **Tailwind CSS** for efficient, utility-first styling.
- Engineered "Simple ShoppY," an intuitive online store, with **Vite** for optimized build performance and a modern UI crafted using **Tailwind CSS**.
